Price 25c

5440 VALLEY BLVD., LOS ANGELES 32
CALIFORNIA

CATALOGUE NUMBER ONE

Price 25c. Deduct from first order of \$1.00

PLEASE: Always give second choice, when ordering from this list, so that we may know what to substitute if we happen to be out of any item. Unless otherwise instructed, we use our judgment in case we are short an item.

TERMS: Cash with order. 15c packing charge on orders less than \$1.50. POSTAGE PRE-PAID in U. S. A. on all retail orders.

PRICES: Quoted according to size, age and rarity of plants. Upon request we will also quote prices on large specimen plants available; please state types desired.

GIFT SPECIAL: Beautiful Plastex Box. All plants visible, 10 rare plants \$1.50

SPECIAL ASSORTMENT OFFER: Nice plants from stock on hand, our choice, at \$1.00, \$1.50 and \$2.00 per dozen according to rarity and size. These are very nice and make an unusual bargain for the new collector. All plants labeled.

FREE: With every order of \$2.50 or more (exclusive of Epiphyllums, Zygos. and Schlumbergias) we give one extra nice plant of our choosing—a plant you will be proud to own.

RARE PLANTS FROM ALL OVER THE WORLD ARE OUR SPECIALTY

We do not ship during the month of May or December

ORCHID CACTUS

EPIPHYLLUMS

EPIPHYLLUMS are the orchids of the cactus family. With this group we also include the Zygocactus and the Schlumbergias as they take the same type of care and also have especially nice flowers. We include free instructions on the care of these plants with every order we ship.

KEY TO ABBREVIATIONS. Size of flowers: (S) small, (M) medium, (L) large, (XL) extra large, (XXL) extremely large. (XYP) extra wide petals. (XNP) extra narrow petals. (F) fragrant flowers. (C) corsage, for flowers that wear exceptionally well. (B) basket, for plants which grow smaller and make fine hanging baskets. (EYE) means throat of flower. (*) means our own originations—not found on any other price list.

The color we refer to as purple, is an iridescent color which ranges from cerise, through lavender, magenta and violet to purple, and is almost indescribable in its beauty. It is almost electric and each person seems to see it as a different color—it is sometimes called electric blue and is the nearest thing to a true blue in the entire cactus family.

NO ORDER ACCEPTED ON EPIPHYLLUMS ONLY FOR LESS THAN \$1.50 due to the cost of packing.

We have hundreds of varieties but we list here only those we feel to be most outstandingly different and most desirable. As we find that the largest cuttings make the sturdiest, fastest growing plants, and bloom much more quickly, we price all cuttings unrooted but of extra size, thus giving added growing speed.

EPIPHILLUM SOCIETY OF AMERICA

The Epiphyllum Society of America was organized May 5, 1940, to encourage interest in the hybrid Epiphyllums and to conduct research that would aid in the standardization of names.

Because of your interest in these plants you have been proposed for membership. The By-laws will explain our organization and by signing this application you agree to abide by them and to lend your aid in this fascinating work.

The organization is non-profit and insofar as possible the non-commercial members will direct its work. The benefits will be in direct proportion to the active part you assume as a member.

Please sign the application blank and remit your dues for the current year and you will be notified as soon as you have been accepted for membership. Be a part of this Society by mailing this application promptly.

I wish to apply for membership in the Epiphyllum Society of America and enclose \$_____ for active membership (\$2.00 per year).

By-Laws of the

EPIPHYLLUM SOCIETY OF AMERICA

NAME: The name of the Society shall be Epiphyllum Society of America.

OBJECTS: The objects of the Society shall be:

The interchange of ideas by Epiphyllum growers and collectors with emphasis on correspondence between members.

The compilation of correct names and detailed descriptions of hybrids together with their synonyms.

The issuance of a quarterly news-letter, including a yearly check list on Epiphyllums.

The publication of a member's handbook with a list of their names and addresses, shall be issued to encourage correspondence between members and to stimulate friendly local gatherings.

The encouragement of the use of the names as first given to the hybrids by their originators.

Where doubt exists as to the identity of a particular variety, an effort will be made to assist the member in determining the correct name. A member shall first file a complete description on a blank furnished by the Society accompanied by a picture or Kodaslide if possible.

It is obviously the right of a member to name a plant he has raised from a seed and the Society will be glad to record such name after the member has filed his report in accordance with the rules governing the matter. It must be a new name. It must not be a color name. There must be definable points distinguishing it from similarly named varieties. A plant raised from seed requires several flowering seasons to determine its true worth and merit, therefore it should not be named and propagated until its true value is established.

MEMBERSHIP: Membership shall be open to any person genuinely interested in Epiphyllums. New members may be proposed at any regular meeting of the Executive Board if they are sponsored by a member in good standing. A two-thirds majority vote of the Board members shall be required for election to membership. There shall be two classes of membership: Active and Honorary.

MEETINGS: A business meeting for the election of officers shall be held the second week in January at a time and place to be announced by the President before the end of the preceding year. Newly elected officers shall assume their duties upon the adjournment of this meeting. A garden event shall be held during May. An indoor general assembly shall be held in the fall. Other meetings may be called by the President or Chairman of the Program Committee, notice of which shall be mailed to each member two weeks previous to date of meeting.

OFFICERS: There shall be the following officers: President, Vice President, Secretary, Treasurer (the latter two officers may be combined in one person), Corresponding Secretary, and a Historian, all elected annually. The officers shall perform the duties of their respective offices until relieved, following the usual parliamentary procedure.

The Executive Board shall be composed of the Officers and the Board of Directors. The Board of Directors shall be composed of eight members, two of whom shall be elected each year to serve for a period of four years. To obtain proper rotation on the original Board, two shall be designated to serve for four years, two for three years, two for two years and two for one year. A majority of the Board shall constitute a quorum. Two-thirds of those present shall be necessary to carry a motion.

DUES: Dues shall be two dollars (\$2.00) per annum, from June 1st of each year, for active members. Dues are payable in advance on or before June 1st of each year and become delinquent September 1st, at which time such delinquent members will be automatically dropped from the membership roll. Memberships taken in the name of business firms and families shall permit attendance of more than one member of such firms and families but only one vote may be cast per membership.

SUSPENSION OF MEMBERS: Any member in the Society may be suspended by a majority vote of the Executive Board. Request for reinstatement must be in writing and addressed to the Executive Board. After due consideration, the suspended member may be reinstated.

AMENDMENTS: These by-laws may be amended by a two-thirds majority vote at any regular meeting of the Society, provided a copy of each proposed amendment, together with a notice of the meeting, has been mailed to each member at least 14 days prior to the meeting.
